

FPV Operatørkamera med sender

Produktkode: 514

Tilgjengelighet: 1

Pris: kr. 280,00

Short Description

FPV 5.8G 48CH 25MW VTX 1000TVL FPV Camera Built-in Transmitter w/ Shell for RC

Beskrivelse

FPV Camera

Sensor : 1/3" COMS

Lens :1000TVL

Angel:170°

Format:PAL

Power consumption:200mA@5V

Power :3.7V-10V

Lens Mirror Diameter:2.9mm

Transmitter

Support video format :PAL

Output Impedance: 50 Ohm

Output signal strength: 13 ± 1 dbm dBm

Output Power: 25mW

Wireless Channel: 48CH

Operating voltage: 3.7V ~ 10V

Current: 100mA

Audio carrier: 6.5MHz

Frequency : 5 BAND 48CH 5645 ~ 5945 MHz

Weight :10.2g

Features:

1. Micro Size and Light weight

2. Easy installation for racing drone

3. 48 channels

4. Wide voltage range , can use 1s , 2s power battery directly , no need extra battery

Package Included:

1 x 5.8G 25mW Transmitter With 1000TVL Camera and Antenna

Note :
Basic stable power with 1s or 2s power battery is suggested by the user and ESC or flight power supply is
